Amref Health Africa has been involved in health development in Kibwezi, Eastern Kenya, since 1978. Its interventions have evolved in tandem with changes in community health needs and changes in government priorities. They have also greatly deepened and expanded in coverage in the 30 years of working in, for and with this hard-to-reach community.

## Amref Health Africa

The AMREF strategy has identified three pillars which, if used effectively, could galvanize collective action towards better health for Africa. These are: local partnerships; building capacity of both the community and the health system; and ensuring that health policy and practice create space for the people to participate and engage in strengthening the health system and promoting their own health.
