Tonicity And Osmosis Answer Key Worksheets - Teacher ...

A somewhat outdated way to refer to a solute is as the tonic (a phrase we hold onto in phrases like "gin and tonic," where the tonic is dissolved in the gin). Using that, we wind up with two more descriptions of the situation above: Side 1 is hypertonic to side 2. That means that the solution on side 1 has more solute dissolved in it than the solution on side 2.

Adjust the concentration of a solute on either side of a membrane in a cell and observe the system as it adjusts to the conditions through osmosis. The initial concentration of the solute can be manipulated, along with the volume of the cell.

Osmosis Gizmo : ExploreLearning

Osmosis. Imagine you have a cup that has (100 mL) water, and you add (15 g) of table sugar to the water. The sugar dissolves and the mixture that is now in the cup is made up of a solute (the sugar) that is dissolved in the solvent (the water). The mixture of a solute in a solvent is called a solution.. Imagine now that you have a second cup with (100 mL) of ...
