All three mechanical engineering courses – HNC, HND and BSc – share a common first year, so you will have the chance to work alongside engineering professionals from all areas of the industry, and share information and good practice. Year One: HNC Mechanical Engineering, full time. Engineering Mathematics 1 – 20 credits; Design and Manufacture – 20 credits

The field of professional, academic and vocational qualifications is ever-changing. The new edition of this practical guide provides thorough information on all developments in these areas in the UK. Fully indexed, it includes details on all university awards and over 200 career fields, their professional and accrediting bodies, levels of membership and qualifications. British Qualifications is a unique resource for human resource managers and university admissions officers to verify the qualifications of potential employees and students.

In a single volume, the new edition of this guide gives comprehensive coverage of the developments within the fast-changing field of professional, academic and vocational qualifications. Fully indexed, it provides details on all university awards and over 200 career fields, their professional and accrediting bodies, levels of membership and qualifications, and is a one-stop guide for careers advisors, students and parents. It should also enable human resource managers to verify the qualifications of potential employees.

What is the difference between an academic and professional qualification? Who should get a professional qualification? Did you know that some professions can not be legally practised with a degree alone? Why get a UK qualification? Is it expensive to gain a British qualification? What is a chartered institute or society, and is it better than a non-chartered body? What is the difference between a professional body and a trade union? These are all questions answered in this book which is designed to help individuals choose a career path and the right professional organisation. In today's world it isn't enough to have a qualification, you need to be able to meet with peers and use the valuable networks that are already in place to foster your profession. Your Professional Qualification provides a comprehensive survey of the qualifications available in the UK along with guidance on where they lead, entry requirements, where to apply and where to study. Derived from the vast and authoritative British Qualifications database, this important publication provides the first easily accessible guide to qualifications and how to get them in the UK. Built around a comprehensive directory of professional qualifying bodies each professional area is described in depth and its qualifications identified and explained. The book is supported by a simple website, which ensures purchasers of the book are kept up-to-speed with new developments.

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.
