Consumer culture are the shared experiences, symbols and norms that evolve in markets for consumer products. This is largely beyond the control of producers as culture emerges as a social process over time. As such, firms benefit by serving cultures that already exist as opposed to trying to create a culture.

*14 Examples of Consumer Culture - Simplifiable*

i. Right to Basic Needs: The basic need means those goods and services which are necessary for the dignified living of people. It includes adequate food, clothing, shelter, energy, sanitation, health, care, education and transportation. All consumers have the right fulfil these basic needs. ii. Right to Healthy Environment:

*Consumer's Rights and Responsibilities | Consumerism*

a society in which people often buy new goods, and that places a high value on owning things: In a consumer society, there may be no better measure of how people feel than what they buy. Warhol's pop art style was intended to make a comment on the consumer society of the 1960s.

*CONSUMER SOCIETY | meaning in the Cambridge English Dictionary*

Yet this focus on needs satisfaction through conspicuous consumption has been charged with undermining the morals of society by encouraging "false values," materialism, unrestrained choice and indulgence, and isolating individuals from their traditional communities as they seek "never-to-be fulfilled" promises from their consumption choices, which, in turn, feeds consumers' anxiety and self-doubt, undermining their sense of subjective well-being, and so reducing their levels of ...

Consumerism is a social and economic order that encourages the acquisition of goods and services in ever-increasing amounts. With the industrial revolution, but particularly in the 20th century, mass production led to overproduction—the supply of goods would grow beyond consumer demand, and so manufacturers turned to planned obsolescence and advertising to manipulate consumer spending.
