Africa's Discovery of Europe - RUSH HOUR BUSINESS

Review: Africa's Discovery of Europe by David Northrup. I just read a very interesting book on Africa's discovery of Europe written by a professor of History at Boston College. The book gives an overview of the encounters between Europeans and Africans, from 1450 till 1850. It starts with the first contacts between Portuguese sailors and African coastal states in West-Africa and is as much as possible based on sources from Africans.

What does the author, David Northrup, mean when he uses the term "discovery" in the book's title? not that Africans found things unknown to others, but rather finding out things unknown to themselves- It also emphasizes that Africans played active roles in their encounters with Europeans and thus counters the assumption that they were passive victims incapable of shaping these encounters

David Northrup (Author of Africa's Discovery of Europe)

"Examines the full range of African-European encounters from an unfamiliar African perspective rather than from the customary European one"--Publisher description.

Interest in African history has been growing rapidly in recent years. The encounters between Europeans and Sub-Saharan Africans--which first began to intensify during the 15th century--are currently a popular area of study. Up to now, however, only the Europeans viewpoint of these encounters has been explored. David Northrup's Africa's Discovery of Europe remedies this imbalance. Northrup explores the African side of this cultural collision as it unfolded in Africa, Europe, and the Atlantic world between 1450 and 1850. The text is organized thematically, with chapters devoted to first impressions, religion and politics, commerce and culture, imported goods and technology, the Middle Passage, and Africans in Europe. It examines Africans' intellectual, commercial, cultural, and sexual relations with Europeans and describes how the patterns of behavior that emerged from these encounters shaped pre-colonial Africa. The book concludes with an examination of the roles of race, class, and culture in early modern times, and suggests which themes in Africa's continuing discovery of Europe after 1850 were similar to earlier patterns, and why some themes were different. Africa's Discovery of Europe is designed to be used in undergraduate courses on Africa and will also have strong appeal to the general reader.

"This volume examines cultural and economic encounters of Africans with Europeans that took place in Africa, in Europe, and on the Atlantic during the four centuries before 1850." --pref.

In this book, the first written about the globalization of the English language by a professional historian, the exploration of English's global ascendancy receives its proper historical due. This brief, accessible volume breaks new ground in its organization, emphasis on causation, and conclusions.

Publisher Description

Schouler Lecture Fund.

Slavery transformed Africa, Europe and the Americas and hugely-enhanced the well-being of the West but the subject of slavery can be hard to understand because of its huge geographic and chronological span. This book uses a unique atlas format to present the story of slavery, explaining its historical importance and making this complex story and its geographical setting easy to understand.

This study looks at the effects of "global" phenomena -- trans-Saharan trade, European expansion, the rise of an Atlantic plantation complex, industrialization, imperialism, colonialism, world wars, growth of a world market, political independence and economic dependence -- on the way of life in Niiumi, a small area at the mouth of the Gambia river in West Africa (now called The Gambia), over the last six-seven hundred years. Written in clear, accessible prose, and drawing on archival and oral traditions, the work considers global developments from a local/regional perspective.

Annamaboe--largest slave trading port on the Gold Coast--was home to wily African merchants whose partnerships with Europeans made the town an integral part of Atlantic webs of exchange. Randy Sparks recreates the outpost's feverish bustle and brutality, tracing the entrepreneurs, black and white, who thrived on a lucrative traffic in human beings.

Africans' influence in the Atlantic world before 1960 was not confined to their roles as victims in the one-way forced migration of the Atlantic slave trade and their labor on New World plantations. From the mid-eighteenth century to the mid-twentieth century, black people in the divided communities of the four Atlantic continents struggled to overcome geographical and cultural separations and build a broad coalition against discrimination and exploitation. David Northrup offers a collection of primary sources that presents the social, political, and intellectual interactions of black people around the Atlantic in their quests for advancement, liberation, and emancipation. His thoughtful introduction explores the themes woven through the history of the black Atlantic, in particular black people's search for security and self-fulfilment and their effort to find their place in a common humanity. Document headnotes, a chronology of key events, questions for consideration, and a selected bibliography offer additional pedagogical support.
