Examining labor organizations from the Industrial Workers of the World in the 1910s to unions in the 1980s, Empire of Timber shows that conventional narratives of workers opposing environmental protection are far too simplistic and often ignore the long histories of natural resource industry workers attempting to protect their health and their futures from the impact of industrial logging.

Empire of Timber by Erik Loomis - Cambridge Core

(8) Empire of Timber tackles this topic by looking at the Industrial Workers of the World's (IWW) organizing of Pacific Northwest logging camps, the Loyal Legion of Loggers and Lumberman (a company union) during World War I, the International Woodworkers of America (IWA) from its formation in 1937, the more conservative United Brotherhood of Carpenters, and the experiences of tree planters or, as Loomis refers to them, "countercultural reforestation workers."

Examining labor organizations from the Industrial Workers of the World in the 1910s to unions in the 1980s, Empire of Timber shows that conventional narratives of workers opposing environmental protection are far too simplistic and often ignore the long histories of natural resource industry workers attempting to protect their health and their futures from the impact of industrial logging.

Empire timber labor unions and pacific northwest forests ...

Though Empire of Timber recognizes that newcomers to northwestern cities and forests have brought new values reflective of a different appreciation of the preservation of forests, the book's most important contribution is that it addresses the historical concern of unionized workers about the health of the environment.

Empire of Timber: Labor Unions and the Pacific Northwest ...

Erik Loomis' book, Empire of Timber, examines the history of workers' environmental activism in the Pacific Northwest of the United States through five case studies of five different labour organizations. As Loomis points out, "examining how unions conceptualized nature to appeal to members or how unions articulated a specific environmental program that shaped resource usage are understudied questions in the environmental history of work."

In Empire of Timber: Labor Unions and the Pacific Northwest Forests (Cambridge University Press, 2015), the historian Erik Loomis examines the relationship between workers and their environments in this century-long history of timber workers in the Pacific Northwest. He shows that the □jobs vs. environment□ tradeoff oversimplifies the history of natural resource workers who have, ever since the 1910s, tried to protect their bodies, environments, and livelihoods from the worst excesses of ...
