Check out the resolution chart below for a quick guide. As lines of resolution and the total number of pixels increase, you get a more lifelike picture. 4K TVs boast four times the resolution of Full HD. 8K TVs offer an even larger jump in pixels — 33 million per screen. Another advantage of 4K or 8K UHD is high dynamic range (HDR).

QVC's Guide to Buying 4K Ultra HDTVs. If buying a new television is on your wish list, you've probably noticed a growing trend in the HDTV market: 4K. Also known as Ultra HD, 4K sets are quickly taking over thanks to gorgeous, often massive displays boasting eight million pixels—yes, eight million! But what does that actually mean for the picture? In this guide, we'll help you discover why pixels matter, what else Ultra HD sets have to offer, and which 4K TV is right for you.
