accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

The accountant is responsible for many activities, which may require years of training and experience to fully comprehend. The breadth of knowledge required can seem overwhelming. The Accountants' Guidebook is designed to simplify matters by providing the accountant with a practical knowledge of how to complete many accounting tasks, while also imparting an understanding of the more critical accounting standards. Topics covered include accounting procedures, GAAP for common transactions, closing the books, producing financial statements and other reports, collection tactics, payroll management, budgeting, and much more. In short, this is the essential desk reference for the accountant.

Paper: 120 pages, Size: 8.5 inches x 11 inches. Include subject section: Date, Account, Memo, Debit, Credit, Balance fields
