### Industrial Revolution--Urban Game - The CAVE

The Industrial Revolution, now also known as the First Industrial Revolution, was the transition to new manufacturing processes in Europe and the United States, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new

## Industrial Revolution - Wikipedia

Industrial Revolution, in modern history, the process of change from an agrarian and handicraft economy to one dominated by industry and machine manufacturing. The process began in Britain in the 18th century and from there spread to other parts of the world, driving changes in energy use, socioeconomics, and culture.

## Industrialization

The Industrial Revolution caused work to move from homes in the cottage industry, to factories in cities. Everyone went to work in factories, including children. "Before the Industrial Revolution, children around the world worked in relatively safe jobs on family farms and as apprentices" (The Evolution of Work and the Labor Force packet 2).
