How to Make a Rectangular Prism Out of Paper | eHow

On a sheet of heavy construction paper, use a ruler and pencil to draw two rectangles. The length of each rectangle should match the length of the final prism, and the width of the two rectangles should match the width of the final prism. After drawing both rectangles, use the ruler to measure them again.

How to make a 3D Cuboid (rectangular Prism) - YouTube

Print out the pages below - ideally onto thicker paper or onto card - and cut out the shapes. Use these to form 3-dimensional shapes by folding along the lines. There are different nets: Cube; Rectangular Prism ; Triangular Prism; Pyramid; Note: Use this printable graph paper generator to create grids that can help students draw their own nets.

Printable Nets for 3D Shapes: Cut-outs | Helping With Math

I highly recommend printing the nets on stock paper rather than regular paper. I have tried it both ways, and regular paper is just too flimsy. After printing, simply cut out the 3d shape nets on the solid lines.. If you ' ve printed on white card stock as I have, take some time to get creative and color or decorate the shapes before assembling them! This could make a great math art project!

Foldable 3D Shapes (FREE Printable Nets!)
