attacks: Part two

Man In The Middle
My

A man-in-the-middle attack is like eavesdropping. When data is sent between a computer and a server, a cybercriminal can get in between and

Access PDF Man In The Middle

spy. A man-in-the-middle attack requires three players: the victim, the entity with which the victim is trying to communicate, and the "man in the middle" who's intercepting the victim's communications.

Access PDF Man In The Middle

What is a man-in-the-middle attack?
- Norton

A man in the middle attack occurs when a hacker comes between two people or systems that are communicating online. This can happen with any form of online

Access PDF Man In The Middle

activity, including email, web browsing, social media and checking out at an online store. It's basically like someone is eavesdropping on your virtual conversation. Let's use an example.
