Medical Assisting, 4/e addresses the most current competencies for medical assisting certification, CPR procedures, coding and insurance billing requirements, HIPAA regulation, OSHA guidelines, and clinical diagnostic testing such as hemoglobin A1c (diabetes) testing. Thorough coverage of procedures remains an asset and Anatomy & Physiology coverage is included in separate chapters. It trains students on medical office administrative procedures and equipment, clinical procedures, infection control, anatomy and physiology, assisting with patients, medical emergencies and first aid, laboratory procedures, nutrition, pharmacology, diagnostic equipment, and much more.

Medical Assisting Review: Passing the CMA, RMA, and CCMA Exams, Fourth Edition provides example questions for students to prepare for certification exams. This reference prepares students to take the exam with easy-to-read essential material summaries that highlight key areas of the major clinical and administrative parts of a Medical Assistant's program. Each of the chapters includes a series of 20 to 30 multiple choice quiz questions and a concise outline of key information. CONNECT PLUS , which is available for purchase separately, provides more than 1600 sample review questions as well as a PowerPoint presentation for additional student review. [The ISBN for the separate Connect Plus access card is: 0077448332. There is also a bundle of the textbook and Connect Plus available for purchase, ISBN 0077866002.]

The medical assisting profession is soaring to new heights with the expansion and diversity of roles and changes in the healthcare environment. Today's medical assistants must juggle many tasks in the medical office to keep up with the changes. The seventh edition of Medical Assisting:Administrative and Clinical Procedures with Anatomy and Physiology was updated to help students as well as instructors learn these ever-changing tasks and stay current in the healthcare environment.

Meeting the highest standards outlined by ABHES and CAAHEP, this is the definitive clinical medical assisting book today! A unique body systems approach sets the stage for this modern and up to date clinical medical assisting book. material. Section I discusses the primary concepts and dynamics of medical assisting. The second section advances the student into the medical office, the physician office lab (POL), asepsis, and minor surgery. Pharmacology and medication administration are also addressed. The book moves on to the third section, diagnostic testing in the medical office. The fourth section covers medical specialties and testing, and the fifth deals with medical specialties. The sixth and final section covers nontraditional medicine."
