In this book I tried to share different types of modalities that people have or can attain. We are all at different levels in our journey. This was not written or meant to teach, but to make you aware of other modalities. I was not able to cover all the different modalities, there are far too many to cover in one book. My intent is to pass on the knowledge of healing and to help people grow and become a healer in whatever they choose.

Spirits can be haunters, informants, possessors, and transformers of the living, but more than anything anthropologists have understood them as representations of something else—symbols that articulate facets of human experience in much the same way works of art do. The *Social Life of Spirits* challenges this notion. By stripping symbolism from the way we think about the spirit world, the contributors of this book uncover a livelier, more diverse environment of entities—with their own histories, motivations, and social interactions—providing a new understanding of spirits not as symbols, but as agents. The contributors tour the spiritual globe—the globe of nonthings—in essays on topics ranging from the Holy Ghost in southern Africa to spirits of the “ people of the streets ” in Rio de Janeiro to dragons and magic in Britain. Avoiding a reliance on religion and belief systems to explain the significance of spirits, they reimagine spirits in a rich network of social trajectories, ultimately arguing for a new ontological ground upon which to examine the intangible world and its interactions with the tangible one.

The Trueba family embodies strong feelings. This family saga starts at the beginning of the 20th century and continues through the assassination of Allende in 1973.

In this personal account, one man details how his past life sins had a direct effect on his love life. Frank Mares, a successful middle-aged businessman, was always mystified why his love life was snake bitten. Others thought of him as a considerate, funny guy with good looks, but every one of his long-term relationships with attractive women ended in a fiery wreck. After

the death of his father, he started a meditation practice that inexplicably rewarded him with psychic abilities. With his new gift, he discovers that reincarnation is real and he recovers facts about nine of his past lives. Most of those lives involved violent, bloody deaths. Mares goes on a spiritual journey to find out why he kept dying violently and why he couldn't find the love he was looking for in his current life. The answers do not come easily, but by using a team of three world class psychics, he tracks down the shocking reason why the Universe is angry with his soul. The psychic team finds that within the soul of this normal, small businessman resides a brutal, stone killer from the 1600's, who surprisingly was the revered founder of a gentile noble family. The killer's portrait still hangs in his tourist destination castle outside of Prague, while Mares pays his Karmic bill. Mares hopes to salvage the dark time in his soul's past into something that could help others today. Specifically, he found that everyone's long term romantic relationships were preplanned before their births. This planning was done not so that you can find love and happiness, but rather so that your soul can learn spiritual lessons through heartache. By examining his past relationships with a new perspective, he saw how the Universe set him up for romantic doom through amazing coincidental encounters and by ruthlessly preventing more suitable girls from ever meeting him. If you read this book, you will never look at Love and Death in the same way again. In addition, some of your past romantic disappointments might now start to make sense.
