In general, the recipes contained in My Sweet Kitchen should be more specific. It's fine to tell the reader to "beat until creamy" or "beat until light and creamy", but the difference of a minute or two in creaming can significantly impact the final texture of a baked good (cakes, cookies, cream cheese frosting, etc), so giving some estimate of time is very useful here.

In a medium saucepan, add honey, water, salt and vanilla bean. Cook over medium-high heat until the mixture reaches around 240 f on your candy thermometer, or if you don't have one, you can (as safely as you can!) check the sugar mixture by dipping a spoon in and dropping a little bit into a cup full of ice water.
