In Neurosis and Human Growth, Dr. Horney discusses the neurotic process as a special form of the human development, the antithesis of healthy growth. She unfolds the different stages of this situation, describing neurotic claims, the tyranny or inner dictates and the neurotic's solutions for relieving the tensions of conflict in such emotional attitudes as domination, self-effacement, dependency, or resignation.

Neurosis and Human Growth: The Struggle Towards Self ...

Neurosis and Human Growth: The Struggle Toward Self-Realization is the magnum opus of German-American psychoanalyst Karen Horney. In it she outlines her theory of neurosis . In Horney's view, the key difference between neurosis and healthy growth is the difference between compulsive actions fueled by anxiety and spontaneous actions fueled by one's full range of emotions.
