Before appearing on the BBC's The Great British Sewing Bee, Chinelo Bally had never used a sewing pattern. She wowed the judges with her ability to create stylish, fitted garments using a freehand cutting method that

was taught to her by an aunt. In *Freehand Fashion*, Chinelo lets us in to the secret of how she does it. Using a series of basic garment blocks, she explains how this innovative technique can be used to create a whole wardrobe of fashionable clothes that will fit every shape and size - with no patterns required. Based on a traditional Nigerian technique, Chinelo has developed her own freehand cutting method. The emphasis is on the individual's own body measurements, and getting the perfect fit. This is a surprisingly simple technique that anyone can learn. No fancy equipment is needed - just a sewing machine, measuring tape, chalk and of course a good pair of scissors. Using step-by-step illustrations, the book shows how to draft, cut and construct the five basic blocks that are used - either singly or in combination - to make every item of clothing in the wardrobe. Once you have your basic blocks, you are ready to tackle the projects - practical garments that are fashionable, modern, stylish and versatile. There are tops, skirts, day dresses and eveningwear. This is an exciting sewing technique that will be brand new to most people, even experienced dressmakers. There really are no limits - and the beauty of this technique is that it can be applied to any body shape.

Bias-cut Dressmaking is the best easy-to-follow guide to bias-cut clothes. It provides step-by-step instructions and diagrams for making over 40 items of clothing that are cut on the bias. The bias-cut technique is used by designers for cutting clothing to utilize the greater stretch in the bias or diagonal direction of the fabric. This allows the fabric to accentuate body lines and curves and drape softly. Bias-cut garments were an important feature of the designs of Madeleine Vionnet in the 1920s and 1930s but are now timeless. This classic text on the subject includes making skirts, dresses, trousers, eveningwear and even lingerie. You can make a halterneck evening dress, a cowl-necked shift dress, palazzo pants, bias-cut culottes, a cowl camisole, a strapless evening dress or a slightly flared bias skirt. The text is clearly written and laid out, making the beauty and the comfort of bias-cut clothing accessible to those not overly familiar with this type of dressmaking, including fashion students and amateur dressmakers.
