It all started with an Oliver 550 farm tractor that I purchased at a local lumber yard auction. As I learned more and more , I realised that I had lucked-out in having stumbled on an Oliver. Next came a White 2-44 loader/backhoe (just an Industrial 550 really), then an estate sale Super 55 from up the road.

The Oliver 77 and Oliver 88 could be bought with either gasoline or diesel engines. During 1954, the company upgraded these tractors with the new "Super" series models, and added the Oliver Super 55. It was the company's first compact utility tractor. In 1958, Oliver began marketing the new Oliver 660, Oliver 770, Oliver 880, and Oliver 990.

When Oliver Sacks was twelve years old, a perceptive schoolmaster wrote in his report: "Sacks will go far, if he does not go too far." It is now abundantly clear that Sacks has never stopped going. From its opening pages on his youthful obsession with motorcycles and speed, *On the Move* is infused with his restless energy. As he recounts his experiences as a young neurologist in the early 1960s, first in California, where he struggled with drug addiction, and then in New York, where he discovered a long-forgotten illness in the back wards of a chronic hospital, we see how his engagement with patients comes to define his life. With unbridled honesty and humor, Sacks shows us that the same energy that drives his physical passions—weight lifting and swimming—also drives his cerebral passions. He writes about his love affairs, both romantic and intellectual; his guilt over leaving his family to come to America; his bond with his schizophrenic brother; and the writers and scientists—Thom Gunn, A. R. Luria, W. H. Auden, Gerald M. Edelman, Francis Crick—who influenced him. *On the Move* is the story of a brilliantly unconventional physician and writer—and of the man who has illuminated the many ways that the brain makes us human.
