Presence-Based Leadership is founded on this liberating premise:

leaders' most crucial and complex challenges, rather than being obstacles, are actually doorways for becoming precisely the leader that current conditions require. Here is a rich field guide to the territory of complexity, and how leaders can navigate it with leading-edge approaches that generate clarity, resilience, and results that actually matter. Silsbee's new book is his most expansive. A master of integration, he seamlessly weaves fields as disparate as complexity, leadership and adult development theory, mindfulness, and interpersonal neurobiology into a deeply human exploration of how leaders can bring the fullness of their humanity to the most intractable challenges they face. His immensely pragmatic approach grounds new perspectives with intimate real-world examples. He offers specific, field-tested experiments and practices that invite the reader into discovery and application. This is a radically new and

integrated approach to leadership, through which leaders can tap the creativity and resourcefulness of their internal complexity in order to meet a complex world. Through cultivating an embodied leadership presence, readers will become more dynamic shapers of the context in which they lead, and a creative force for what matters in a fractured and dynamic world. Presence-Based Leadership is the third and final volume in Doug Silsbee's groundbreaking and influential trilogy on coaching and leadership.

Presence-Based Coaching offers coaches a hands-on resource for developing the capacities and skills needed to be reliably present in all situations, and shows how to let go of habitual—and often ineffective—ways of responding. As author and leadership expert Doug Silsbee explains, once a coach has mastered the inner moves

of directing their own attention, they can work to develop the same capability in their clients. The ability of a coach to facilitate lasting, sustainable development in leaders rests on the presence a coach offers to the coach-client relationship.

Are you “ leadership material? ” More importantly, do others perceive you to be? Sylvia Ann Hewlett, a noted expert on workplace power and influence, shows you how to identify and embody the Executive Presence (EP) that you need to succeed. You can have the experience and qualifications of a leader, but without executive presence, you won't advance. EP is an amalgam of qualities that true leaders exude, a presence that telegraphs you're in charge or deserve to be. Articulating those qualities isn't easy, however. Based on a nationwide survey of college graduates working across a range of sectors and occupations, Sylvia Hewlett and the Center for Talent Innovation discovered that EP is a dynamic, cohesive mix of appearance, communication, and

gravitas. While these elements are not equal, to have true EP, you must know how to use all of them to your advantage. Filled with eye-opening insights, analysis, and practical advice for both men and women, mixed with illustrative examples from executives learning to use the EP, Executive Presence will help you make the leap from working like an executive to feeling like an executive.

Noted speaker, musician, and coach Barbara McAfee shows how to become a more effective communicator by mastering the full range of your voice and learning to match tone to content.

What a wonderful way to learn!" —Geoff Bellman, consultant and author, *The Consultant's Calling* "Mary Beth brings a keen business focus to coaching by not just contributing insights but through helping me and my team gain the insights that we need to solve our own problems. She has the ability to see through the sometimes chaotic dialogue and personalities in order to help a team focus on the real issues and dynamics that can impede
