If your business uses warehouses to deal with the sales of goods, then you know that facility operations, shipping, and customer service are important to your company's health. Eaches or Pieces Order Fulfillment, Design, and Operations Handbook offers insights for warehouse, distribution, or logistics professionals to make their "eaches or pieces"

Order-Fulfillment and Across-the-Dock Concepts, Design, and Operations Handbook provides insights and tips that warehouse and distribution professionals can use to make their order fulfillment or across-the-dock operations more efficient and cost-effective. Each chapter focuses on key aspects of planning and managing, making it easy to find informa

This NEBOSH-endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the

consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color, and supported with checklists, report forms and record sheets used currently in the industry. Students are supported with end-of-chapter questions, a study skills chapter and specimen assignments including specimen answers. As NEBOSH actively grow their qualifications internationally, demand for this book and it's sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.

Introduction to Health and Safety at Work covers the fundamentals of occupational safety and health for the thousands of students who complete the NEBOSH National General Certificate in Occupational Health and Safety each year. This seventh edition closely follows the NEBOSH National General Certificate syllabus which was updated in 2019 and comes into use in 2020. The highly illustrated content covers all of the essential elements of health and safety management, the legal framework, risk assessment and control standards and also includes checklists, report forms and record sheets to supplement learning. It also has an extensive summary of current health and safety legislation. • Aligned to the NEBOSH National General Certificate in Occupational

Health and Safety • Practice questions and answers to test knowledge and increase understanding • Complete with a companion website containing extra resources for tutors and students The book is suitable for all students following a level 3 Health and Safety course and a source of reference and guidance for managers at work in the UK. Written by renowned authors, this book is often provided as part of the Certificate course and is essential reading for a student.

* Take a look at the dedicated microsite for free sample content - architecturalpress.com/the-metric-handbook * Originally devised as a guide for converting from imperial to metric measurements, 'The Metric Handbook' has since been totally transformed into the major handbook of planning and design data for architects. This new edition has been updated to account of the most recent changes to regulation and practice - in particular the increasing emphasis on environmental legislation - to meet the needs of the modern building design professional. The Metric Handbook deals with all the principal building types from airports, factories and warehouses, offices shops and hospitals, to schools, religious buildings and libraries. For each type the book gives the basic design requirements and

all the principal dimensional data, as well as succinct guidance on how to use the information and what regulations the designer may need to be aware of. As well as buildings the Metric Handbook deals with broader aspects of design such as materials, acoustics and lighting, and general design data on human dimensions and space requirements. The Metric Handbook is a unique authoritative reference for solving everyday planning problems. It has sold well over 100,000 copies worldwide to successive generations of architects and designers - this is a book that truly belongs on every design office desk and drawing board.

The second edition of International Health and Safety at Work has been specially written in simple English for the thousands of students who complete the NEBOSH International Certificate in Health and Safety each year. Fully updated and matched to the March 2011 syllabus, this course book provides students with all they need to tackle the course with confidence. Full colour pages and over 200 illustrations bring health and safety to life. Each chapter starts with learning outcome summaries and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter are also included to aid exam preparation. Endorsed by NEBOSH for the International General Certificate in Occupational Health and Safety. Provides all

the material students need for the course including tables, forms and checklists that can be used for health and safety activities such as risk assessment Gives a unique summary of Occupational Health and Safety legal frameworks in over 20 countries including the EU and USA plus details of several ILO conventions and recommendations which are useful to students and a wide range of managers This NEBOSH-endorsed textbook introduces the reader to the fundamentals of health and safety in the workplace from an international perspective. The book not only meets the needs of students on the NEBOSH course but remains a useful reference for all managers who work to international standards and need to adapt them to local needs and practice. Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy. He received an MBE for services to health and safety and as director of RoSPA in the New Year's Honours List 2005. Ed Ferrett PhD, BSc (Hons Eng), CEng, MIMechE, MIET, CMIOSH, is a former Vice Chairman of NEBOSH (1999-2008) and a lecturer on various NEBOSH health and safety courses. He is a Chartered Engineer and a health and safety consultant.
