## Of Organic IUPAC Chemistry A NOMENCLATURE | Directory To ORGANIC COMPOUNDS | Comprehension RULES And Application Of Its Basic Principles

The systematic nomenclature is used for ethers with complex substituents.

The idea here is to treat one of

# Download File PDF Systematic

the alkoxy  
(alkyl with the  
oxygen) groups  
as a substituent  
connected to a  
parent chain.  
The parent chain  
is determined  
just like we  
always do, based  
on the longest  
carbon chain.

Naming Ethers -

# Download File PDF Systematic Chemistry Steps

A chemical nomenclature is a set of rules to generate systematic names for chemical compounds. The nomenclature used most frequently worldwide is the one created and developed by the
