The Hidden Connections
comments on a variety of
issues surrounding the idea
of sustainability that
author Capra considers
central in the early years
of the 21st century. The
first part of the book is
theoretical, “a conceptual
framework that integrates
life’s biological,
cognitive, and social
dimensions.”

...

The Hidden Connections is a 2002 book by Fritjof Capra, in which the author proposes a holistic alternative to linear and reductionist world views. He aims to extend system dynamics and complexity theory to the social domain and presents "a conceptual framework that integrates life's biological, cognitive and social dimensions".
