Set in the period of America's westward expansion, this tale of love, power and conflict brings to light the swirling undercurrents of history. Torn from a life of privilege in her native England, Racine finds in America a love and fulfillment with Lucas that had evaded her in a desperately unhappy marriage with the cruel and self-centered Clive. In an epic tale of courage and commitment, Racine builds her own empire among the empire-builders in the age of the iron horse and the iron men who rode them to glory! A romance framed in an equally romantic period of American history, "Silent Seasons" was created out of a deep love for the human spirit, in whatever time or whatever circumstance it may find itself. After all, in the uncounted years we have been upon the earth, we haven't changed all that much, We still love, we still grieve, we still pass through our own silent seasons. Any who read this story will surely find in it elements of their own story. And isn't that what life is all about; the living of our hopes and dreams? Of course it is. We know it in our hearts.

A short heroic novel by Ernest Hemingway is a story that centers on an aging fisherman who engages in an epic battle to catch a giant marlin It was published in 1952 and awarded the 1953 Pulitzer Prize for fiction. Author: Ernest Hemingway Genre: Novel

The inner workings of a writer's life, the interplay between experience and writing, are brilliantly recounted by a master of the art. Gay Talese now focuses on his own life—the zeal for the truth, the narrative edge, the sometimes startling precision, that won accolades for his journalism and best-sellerdom and acclaim for his revelatory books about *The New York Times* (*The Kingdom and the Power*), the Mafia (*Honor Thy Father*), the sex industry (*Thy Neighbor's Wife*), and, focusing on his own family, the American immigrant experience (*Unto the Sons*). How has Talese found his subjects? What has stimulated, blocked, or inspired his writing? Here are his amateur beginnings on his college newspaper; his professional climb at *The New York Times*; his desire to write on a larger canvas, which led him to magazine writing at *Esquire* and then to books. We see his involvement with issues of race from his student days in the Deep South to a recent interracial wedding in Selma, Alabama, where he once covered the fierce struggle for civil rights. Here are his reflections on the changing American sexual mores he has written about over the last fifty years, and a striking look at the lives—and their meaning—of Lorena and John Bobbitt. He takes us behind the scenes of his legendary profile of Frank Sinatra, his writings about Joe DiMaggio and heavyweight champion Floyd Patterson, and his interview with the head of a Mafia family. But he is at his most poignant in talking about the ordinary men and women whose stories led to his most memorable work. In remarkable fashion, he traces the history of a single restaurant location in New York, creating an ethnic mosaic of one restaurateur after the other whose dreams were dashed while a successor's were born. And as he delves into the life of a young female Chinese soccer player, we see his consuming interest in the world in its latest manifestation. In these and other recollections and stories, Talese gives us a fascinating picture of both the serendipity and meticulousness involved in getting a story. He makes clear that every one of us represents a good one, if a writer has the curiosity to know it, the diligence to pursue it, and the desire to get it right. Candid, humorous, deeply impassioned—a dazzling book about the nature of writing in one man's life, and of writing itself.

“Beautifully documented . . . no less than a landmark in the field of writing and journalism.”—The Nation “Fascinating . . . Seldom has anyone been so successful in making a newspaper come alive as a human institution.”—The New York Times In this century and the last, most of history's important news stories have been broken to a waiting nation by The New York Times. In *The Kingdom and the Power*, former Times correspondent and bestselling author Gay Talese lays bare the secret internal intrigues at the daily, revealing the stories behind the personalities, rivalries, and scopes at the most influential paper in the world. In gripping detail, Talese examines the private and public lives of the famed Ochs family, along with their direct descendants, the Sulzbergers, and their hobnobbing with presidents, kings, ambassadors, and cabinet members; the vicious struggles for power and control at the paper; and the amazing story of how a bankrupt newspaper turned itself around and grew to Olympian heights. Regarded as a classic piece of journalism, *The Kingdom and the Power* is as gripping as a work of fiction and as relevant as today's headlines. Praise for *The Kingdom and the Power* “I know of no book about a great institution which is so detailed, so intensely personalized, or so dramatized as this volume about The New York Times.”—The Christian Science Monitor “A serious and important account of one of the few genuinely powerful institutions in our society.”—The New Leader “A superb study of people and power.”—Women's Wear Daily
