Topographic Maps Exercise Three - ISU Geosciences

In this exercise, you will examine a map that needs to be updated with new symbology. You will use feature class representations to improve the map. Feature class representations give you greater flexibility and control of your map symbology by storing complex, rule-based symbols in the geodatabase along with the map data.

Exercise 1: Learning the fundamentals of representations ...

This is a basic introductory online exercises that introduces students to digital topographic maps. Students download a geoPDF from the National Map and install the TerraGo geoPDF toolbar. They use the toolbar to conduct a series of measurements.

Introduction to Online Topographic Maps

On the topographic map, the distance from the top of the small cinder cone (north of Mount Price) to the Battleship Islands is about 4.5 cm. The same distance measured on the middle aerial photograph is about 6.5 cm. Therefore, the nominal scale is $(6.5 \text{ cm} / 4.5 \text{ cm}) \times (1/50,000) = 1/72,222$ or about These broad pathways are valleys floored by material that forms the crescent- shaped "waves ...
