Total Quality Management (TQM ) is a top-management strategy aimed at embedding awareness of quality in all organizational processes. Total Quality Management is a total system approach and it is an integral part of the strategic decision making of the top management. It works horizontally across all the functions and departments.

Structure

All are responsible for quality improvement especially the senior management & CEO ' s Senior management must practice MBWA Ensure that the team ' s decision is in harmony with the quality statements of the organization Senior TQM leaders must read TQM literature and attend conferences to be aware of TQM tools and methods Senior managers must take part in award and recognition ceremonies for ...

Total Quality Management - slideshare.net

Total Quality Management (TQM) is a systematic approach to quality improvement that marries product and service specifications to customer performance. TQM then aims to produce these specifications with zero defects. This creates a virtuous cycle of continuous improvement that boosts production, customer satisfaction and profits.
